Camp Ken-Jockety Letterboxes

Name	Compass Required?	Description
It's a Stretch		Walk around Becky's Pond until you reach a bench on the far side away from the pavilion. Safely cross the street and walk toward the Musical Playground. Ring the biggest bell and find south on your compass. Walk 92 paces, the box you seek is near.
Corner		Begin your hunt at the southeast post of Ferguson Dining Hall. Go due east about 30 steps. Be careful in the middle of the road. Go 70 steps at 200° and then wash up if needed. Look to the south and find the big tree. Behind the tree is the deck corner of a cabin. Under that corner sitting on a ledge is what you seek.
Picnic		Go to Wooded Hills Kitchen shelter and find the outside, southwest corner of the building. Turn your compass to face 240°. Directly in front of you should be a picnic platform. What you're looking for will be somewhere around that platform.
KJ		Past Trumbull Cabin is an old platform tent unit called Woodcrest. This is a great space to hang a hammock and relax after a long day of camping. This box is hidden under one of the old platforms, see if you can spot it!
