of ohio's heartland

The You're Environmentally Aware! (YEA!) Toe program has helped girls learn more about their environmental surroundings for several decades. The program has now been updated to include more up to date discussion topics, so girls are more aware of them!

The way the program works: Start by earning your foot with the YEA! Toe Game, which can be found at www.gsoh.org. Then find Toe Binders at each of our camps, plus our service centers with a resource library. It should take about two hours or less to complete them.

In addition to earning the foot, you can earn toes about the following topics:

Bat

Bird

Conservation

Compost

Day Camp

Tree

Weather

Wildflower

Once you have finished one of the Toe lesson plans, the patches may be purchased in our Girl Scout Shops! If you have questions about the GSOH YEA! Toe program, please contact ebargiel@gsoh.org.

The TOES are back in Town!
